LOUVRESYSTEMS

Control with style

Rainshield Louvre Roof

louvresystems.co.nz

Elevate your outdoor space with a modern, versatile Rainshield louvre roof.

Designed to enhance your lifestyle while delivering practical benefits. Every Rainshield system combines architectural elegance with effortless operation, allowing you to control with style.

Simple comfort, style, and year-round usability, the Rainshield system gives you complete control over light, shade, and weather protection. Rainshield louvre roofs transform Kiwi decks, patios & terraces into functional living areas.

Residential decks patios & terraces

The perfect blend of form & function

Enhanced Outdoor Living
Perfect for dining, entertaining, or relaxing, turning any outdoor area into a functional extension of your home to enjoy in all seasons.

Optional Automation
Motorised systems with smart home compatibility, allow remote control of louvres, lighting, and even rain sensors for automatic closure of louvres when it rains.

Seamless Integration
Sleek design complements both contemporary and traditional architecture.

Additional Weather Protection
Add outdoor blinds, sliding or fixed louvre panels for extra privacy and weather protection.

LED Lighting
Dimmable ambient or task lighting integrated into the frame, operated through shared remote control.

Customisable Options
Custom powder coat colours and sizes to suit your space and style.

Weather-Resistant Design
Built strong to withstand sun, rain, and wind, ensuring durability and low maintenance.

Adjustable Louvres
Rotate louvres to control sunlight, shade, and weather protection.

Energy Efficiency
Enhance natural airflow and light, reducing the need for heating, cooling, or artificial lighting.

Structural Engineering
Engineered to meet NZ building codes for all wind zones.

Sustainable
Locally made of 100% recyclable NZ aluminium, making it a sustainable choice for your outdoor living space.
